Task 2: Hello, my name is Huyen. I am 18 years old. I'm live in Ha Dong, Ha Noi city with my family. Today i want talk about "Living in big families has both advantages and drawbacks". In my opinion, living in big families has drawbacks: First, Parents will be much harder when you do not have enough time to take care of their child. Second, If you have a large family, you must be a large source of income. Finally , you need to have a big house , several rooms. And you have to buy many more items for your family. However ,Living in big families, you will be very happy. On good days, and with spare time, you and your family went on to play with grandparents, it is very meaningful and fun. Everyone in the family can help each other. You can help your parents clean the house , wash the dishes , ... Your parents will feel very happy and proud of you. In your free time, you can play with sisters and brothers. Or you can go out with family , eating , traveling and taking souvenir photos. A large family is wonderful.
