

Task 1: Hi Anna, I am writing this email to tell you that my birthday is yesterday. I was so glad that I received many nice birthday gifts from my family and friends. Among all of them, I like teddy bear best, which my aunt gave to me. I love it because the teddy bear is so lovely and big that I can hug when I sleep. It was the greatest birthday I have ever had. I am looking forward to your reply soon. Have a nice day, Anna. Sincerely, Task 2: Some people said that travelling by plane is the most expensive and dangerous, but others did not. In my opinion, plane is not the most dangerous and luxurious vehicle because of 2 reasons below. Firstly, the plane is not the most dangerous transportation. As some research about accident in all kinds of vehicle, there is fewest accidents from plane. Almost accidents come from cars and motorbikes. Secondly, nowadays, it is quite cheap to travel by plane when they get some tickets on sales. For example, we can book the ticket 3 or 4 months before, so the ticket is even off by 75%, which is lower price than going by cars or train. In my conclusion, every vehicle can be dangerous and take a lot of money but we need to consider the time to book, the weather when you travel. Therefore, it can prevent some danger and enjoy a great journey, that's why travelling by plane is not the most expensive and dangerous.
