

Task 1: Hi Ally, My birthday was so happy. I invited some close friends, we prepared the party happily together. After eating birthday cake we went to the beach near my house and walking along the coast, singing some of our favorite songs. We ate seafood barbeque grills, it was so amazing. Then I opened presents that they gave to me. It was a hot trend pink skirt, a big Teddy bear, a good book of the author I like most. So lucky I am! It would be more fun if you were there, miss you!

Task 2: Everyone has an ideal house for himself. Someone likes to have a big house, someone prefer to have a medium-size house. In my opinion an ideal house does not need to be large. I like the house that well-adopted with facilities and there have enough rooms for all members. I don't like large house because it will take a lot of time to clean up and there will be empty rooms or blank space that not to be used. Maybe it will become a refuge for wild animals like spiders, bats, wild cats or something like that. I think a medium-size house is best for me. The important thing is not how large it is, how beautiful it is, that is how happy we are. How large the house is is not important that is how we live in it
