

Task 1 Hello Alex. I'm Huong. I'm nineteen years old. I have my sister . My hobbies are listening to music, watching films and travelling. I love many kinds of music; especially, when I fill myself with the sorrow, I love the songs which can share my sadness. Besides, I extremely love travelling, exploring new places with plentiful cuisines and nature, especially walking along the beach in the dusk that make me comfortable and peaceful. There is another hobby that I really enjoy - gathering with my friends for chatting. Huong Task 2 I agree the moon and space will be popular places to go on holiday in the future .
