

Task 1: Hi Spencer, I like this idea. I know a good restaurant which near my house. This reataurant is buffet Sen in 614 Lac Long Quan, Tay Ho. This restaurant's view is luxurios, beautiful. You will enjoy the delicious plentiful foods in here. There have a parking car so you can park there. This restaurant open at 11:00 to 14:00 so we can go there at 10:30. We will meet in my house at 10:15 and then go to the restaurant. See you soon. Ha

Task 2: Nowadays, when travelling is more and more developed, people can go to everywhere in many different ways. Some like travelling alone. Others love travelling in groups with a tour guide. I am in agreement with the idea that travelling solo is the best way to travel everywhere. Firstly, travelling solo is the time you feel so independent. You do not have to depend on others' decision or ideas. You have your own opinions to decide where to go and what to do next. It is really the time you enjoy yourself and complete your itinerary without disturbing from fellow - travellers. Secondly, on the way you travel, you will meet many people especially locals and have a chance to have new friends in many different places. It is also the time for you to join social activities, or volunteer in charity organizations. Moreover, you can discover typically interesting things of culture, people, food and drinks in every part of the places you visited, which you cannot gain when travelling in groups. In conclusion, it is undeniable that travelling solo has its own advantages. Therefore, I do confirm that you will feel very excited to carry out an alone trip if you want to by yourself.
