I also get your gift , it is beautiful , thank you very much . birthday wish that next year we will be together . miss you TASK 2 Everyone has its own model of an ideal home, it was suggested that an ideal house must be big. I disagree with this opinion Because in my opinion is the ideal house to live comfortable and loved it, without enormous. It could be a private little house with surrounding gardens or an old house with vines around the house or the great ideals, it is the opinion of every person. I think, no matter small or big house which is important when living in it feel cozy and comfortable to be with their loved ones. Not just a big house, then feel happy. Personally, I prefer a small house and near nature. There are a vegetable garden and a small flower pot fragrance, if there is a big tree again, great. Now I live with my parents, no home so many trees, but for me it is a great home, because there was my family, I would love to finish a day's work no.Ket and study hard, return to his small house dinner with relatives, and talk very happy for me it is a perfect home
