

Task 1: Dear Phuong, In the last email, you have asked me about a time to go to the zoo and today i will tell you. I remembered the first time i visited the zoo was when I was 14 years old. It was Thu Le zoo and it was near my university. It was very beautiful with a lot of animals and games. That time, I went with my mother and brother. We played games and saw animals: mokeys, tigers, elephants, giraffes, ... I gave bananas to mokeys. We took a lot of photos. And we also had a lunch with hotdogs, orange juice and coca cola. We had a very memorable trip. I am excited to read about your visit to the zoo. Looking forward to your e- mail soon. Love, Huong

Task 2: In my opinion, theme parks are the best place for teenagers to play nowadays. I think the park is a funand good place to have play and relax. The park have fun games and have fresh air. Young people can sit at the benches or on the grass to talk together and sightseeing. In stead of playing video games, the park is fun place for teenagers. They can have outdoor activities and this is very good for health.
