

Tast 1 : Hello Hannie, Next Friday , I can go walking with you in the park at Cau Giay stress. I will wear white croptop and short jeans. I will be greatful if you bring water. See you on Friday ! Tast 2 : Somebody says that : Travelling is waste of time and money. I do disagree with this idea. I think travelling is useful anyway. Firstly, travelling helps me to relax. When you work hard all week, you need time to refresh. And, travelling is the most suitable. Secondly, when we travelling we can learn some new interesting things. We know more about culrure , habits and customs. So, in conclusion, travalling is good for us if we spend not too much time and money on it.
