Task 2 : In my opinion shopping online has some beneficial , some harmful. Shopping online - a new form of commerce in Vietnam but appear developed very quickly, attracting more customers use the information. Buying goods online has many advantages compared to Vietnam Sailing direct selling . When shopping online you will : Consignee either time-saving home. This is the biggest advantage that everyone agrees. In the busy life, the use of time reasonably necessary. If you want to buy a certain product you should bother, take time to find the product, to the place of sale ... Instead of wasting time so you just need to click on the online shopping site, select the I want to buy and then click the button to order or purchase. Delivery personnel will be sent to the address you desire. So when shopping online saves you time and reduce the maximum life's troubles. Compare prices easily. All prices are available in the online sales website. You know the price before you decide to purchase, select products suitable for their pockets. Avoid the absence of a purchase few people I do not like just because "without buying asking price was a little odd." Above all, you can compare to choose the most popular products with the most competitive price, that's what everybody when shopping inter Diverse selection Avoiding crowded places fuel savings But, there are some harmful when buying online. Risks in quality of products / services Payment Risk Risks in transportation Suffering the costs incurred.
