

Task1: Hi Alex, Thank your postcard. Wellcome to my country, nice to meet you. Next month is summer. Summer, is characterized by hot and sunny weather in most places and people prefer to wear clothes such as shorts, t-shirts, sleeveless garments, sandals and caps. Beside, you should bring the umbrella because the weather can be rainy. Best wish Yen Task2: I don't agree with opinion: A successful film only needs famous actors. Because it is only part. I think a successful film not only needs famous actors but also a successful film need a good director, experience actors and have got enough money to pay for a film. The director, who is supply concrete guidance in production and responsible for a film. All actors have an important in a film.
