

Task 1: Dear Chrish, I am applogise for not being at your party. Last night I felt tired so I didn't come. know you have been very sad Task 2: As we know, the earth is the only planet where exist life, but it is under the threat of pollution. Nowaday, there are a lot of companies, factories or enterprise and it's also the cause of the pollution. The gas from these companies destroyed the atmosphre. The ozone layer helps to protect life on Earth from the sun's ultraviolet rays, but human activities have contributed to the accelerated depletion of this protective shield. Substances that contribute to ozone depletion usually have high concentrations of chlorine or bromine atoms and include chlorofluorocarbons, or CFCs,.. So, the solution for our planet that we have to plant a lot of trees. The more tree the better !
