

task 1 Dear Alex, It will be nice to see you next month. I know a pool near the town centre. You can go there in ten minutes by bus (bus number is 29) from the town centre. The water's really comfortable. The best time to go i think is in the morning. Love, Linh task 2 Like living in a big family. it have many advantages. first, Families learn how to work hard and work together. In a home with only a couple of children, parents can more easily do all the housework alone. In large families, however, teamwork becomes necessary. Mom or Dad can't do it all alone. Each member has to pitch in to keep the house and family running. Chores get assigned, and everyone works together to get things accomplished. Anyway, many people still enjoy being a member of a large family. Living in a large family is actually a very good thing if we always try our best to make our family happy.
