

task 2: Tourism is the type of service most popular and the use of aircraft to explore the new site is very popular. however the use of the aircraft are feared by many people recently have been many incidents involving malfunctioning aircraft. Typical is the Casa-212 plane of Vietnam met the more recent incident made many people interested. Many people think the jet lag k safe anymore than that is relatively expensive cost. Still according to travel by air you have a lot of convenience, such as saving time, can enjoy the view from on high angle, reducing road traffic congestion, ... and the staff on the plane very attentive service of making all people feel comfortable. The meeting was very little trouble, so I think that the use of the aircraft is essential to promote Vietnam's economy develops and more modern.
