

Task 1: Dear Sam, How are you? Like you, I love listening to music. My favorite band is 365 Daband. This band has 5 members originally: Issac (the leader), Jun, Tronie, Will and S.T but Tronie left. I felt sad because he's a talent rapper and I hope he will back to the band someday. 365 Daband is one of the most famous bands in Vietnam because not only their good-looking physical attractivenesses but also their beautiful voices. I especially like Issac because he is a wonderful leader. I listen to this band every day and when they reissue a new album, I listen to it immediately. How about you? Write to tell me about your favorite band. I'm looking forward to hearing from you. Your friend, Thuy

Task 2: Nowadays when IT has been developing fast, shopping online becomes popular. But is shopping online really better than going into shops? I don't think so. We can't negate that shopping online saves lots of time but it also has some disadvantages. One off the biggest problems of shopping online is that products we see on the Internet are different from ones we receive. Last month I saw a very beautiful dress on a shopping online website. The advertisement introduced that it was made of good cloth so that I ordered to buy that dress through the Internet. However, the dress which I received was very different from the one which was introduced on the website. Its cloth was terrible and it's not beautiful like the one in the picture. After that I couldn't believe products on the Internet.
