Uyen. Task 2: My fashion style is casual because of comfortableness and convenience. I love many kinds of clothes such as: skirts, T-shirt, blouse, jeans and so on. Of all my favorite, I like wearing T-shirt and jeans most like almost all of students. I think, personally, this is a popular style which brings comfortable feeling to wearer. Because of having many activities which I take part in, so I choose T-shirt and jeans above all others. Furthermore, it is not only beautiful but also sporty when I dress it; it is possible that I am quite like man. Also, I catch my eyes to other fashions, too at least I still love my favorite fashion most such as dresses, blouses, and so on. Recently, I have changed my clothes fashion; I turn to love wearing dresses more because of its gracefulness. Consider office worker, while seeing them wearing formal skirt, I find they are so wonderful. They give others the creeps. In short, one person is match with a certain fashion clothes so it creates variety of fashion and I will wear anything as long as it's suit for me.
