

Task 1: Dear Alice, I'm writing to you today to tell you about my visit to Thu Le zoo. It is on Kim Ma street. I went there last sunday with my family. It was really fun. There are alot of animals here such as: Indo-Chinese tigers, lions, leopards, elephants, and hippos. There is a lake too so I took some beautiful photos of it. Then my dad bought us ice-cream. I had chocolate ice-cream and my brother had strawberry ice-cream. I hope that we could visit Thu Le zoo together next time. Anna

Task 2: In my opinion, Theme parks are the best place for teenagers to play nowadays because of these following reasons. First of all, theme parks are fun. Theme park is a group of entertainment attractions, rides, and other events in a location for the enjoyment of large numbers of people. Fun parks starting as miniature golf courses have begun to grow to include batting cages, go-karts, bumper cars, bumper boats and water slides. Some of these parks have grown to include even roller coasters, and traditional amusement parks now also have these competition areas in addition to their thrill rides. Teenagers can experience thrilling and exciting moments. Secondly, Going to theme parks is better than staying indoors. Teenagers nowadays prefer watching TVs at home to hanging out with their friends outside. Going outside helps improve your mood and self-esteem. Going to theme parks also helps teenagers communicate with other people. All their stresses about work, study, relationship will decrease when they having fun. Going to theme park means going outside, and going outside means you are spending your time in the sun which increase your vitamin D Levels. Vitamin D fights infections, including colds and the flu, as it regulates the expression of genes that influence your immune system to attack and destroy bacteria and viruses. In sum up, teenagers should hanging out at theme parks more often.
