

Task 1. Dear Chris, I'm so sorry because I didn't come to the party last night. Today, I have a test so I reviewed last night. I can meet you on Saturday. We will meet in the afternoon. I want to invite you to go to the cinema. See you later. Nhi.

Task 2. I think we must all look after the planet. People is destroying the environment, firing the forest, hunting the wild animals,....We devastated natural, environment of the planet. We are destroying our own life. Due to land, water, air, forest,...human can proliferate and develop. Let's try to imagine: if the planet was no longer, human would be like. It is terrible! We will face the dead because of a lack of resources, air, happiness,...Therefore, now let's join hands to protect our planet and environment. Don't disaster, the poverty, misery destroy our life. Let's say "No" to hunting wild animals and use products from wild animals. We must not fire forest. The country must enact the environmental protection laws.
