

Task 1: Dear Kevin Are you free next weekend? I want to invite you to go to the cinema with me. Have you heard any about "Home alone" movie? It is a 1990 American Christmas comedy film. The film stars Macaulay Culkin as Kevin McCallister, a boy who is mistakenly left behind when his family flies to Paris for their Christmas vacation. Kevin initially relishes being home alone, but soon has to contend with two burglars. That film is very funny. I think you will love that film when you see it. We will meet at the cinema at 4:30pm because the film starts at 5:00 pm. I very hope you will come with me. Please answer me soon Love, Phuong

Task 2: I think watching television all weekend is not good for you. First, TV will never be a serious competitor for radio because people must sit and keep their eyes glued on a screen. It is robbing you of precious mental energy. When concentration is held hostage when your television is on. Your mental energy is drawn into the screen and your ability to control it is given up. Secondly, It is costing your money. American spend over \$6 billion per year just paying for the electricity to power their tv sets. Next, It is taking you away from the real people all around you. The characters on tv are not real. They are thought up in an office building and given up life on a piece of paper. In contrast, you need the real people to help you facing real problems in the real world. Finally, It is influencing your spending habits. In a word, watching tv all weekend is not good for you in all way
