

Task 1 To: Alex Subject: Hi:)) Hi Alex, Nice to meet you! My name's Linh. I'm very happy when I receive your note. I'm nineteen years old. I have only one younger brother. He is very obstreperous and naughty. He often makes me angry. I enjoy reading a lot of books. I see reading books is very interesting and helpful. When you read one book you can know more about the world without directly to it. So What is your favorite hobby? I'm looking forward to receiving your next email. Nice to meet you soon! Yours, Linh

Task 2 You can go somewhere to go on holiday but in the future I think the moon and space will be popular places to go on holiday. First of all, now you can see that the discovery of the moon just for astronauts or scientists or you can just see the space and the moon on the mass media device but imagine in the future you can sit spacecraft to the moon, is it interesting? Secondly, the moon and space is still very much a mystery to the people to explore and explore out. So the explorer on the moon can help us a great deal of space in which we live. According to scientific studies, the moon is the only natural satellite of the Earth 's natural satellite and the fifth largest in the solar system . It is especially so, then why can not we go there. Last but not least, we know about the moon through the literature and art , the moon is also the inspiration for many other works . It is one of the visual arts , the performing arts of poetry , literature and other arts. We see are learning about the moon really is new , but with wisdom Vietnamese people , on one day the moon will be a tourist attraction from all over the world.
