

Task1 Hi ally. Today I write to you to tell about the last birthday party. It's a very crowded party with lots of friends and relatives to attend. We also singing, dancing, talking about that birthday party. But the most fun for me is get people to congratulate and give meaningful gifts such as teddy bears, ipad, guirta, ... Other messages have long to meet again when I'll tell you after the birthday party offline. Best friend Tuan Anh Task 2 In my opinion one of my ideal home not just large but also convenient for use. The house is where we live and daily activities so demand must be at the forefront. Homes that have fully equipped as a bedroom, living room, bathroom, kitchen, ... also must be equipped with a camera system around to convenient for monitoring. Must be fully in-house television, computers, refrigerators and other devices for people use. Before the house must have large yard, many trees to create airy atmosphere. My opinion is the same. How about you?
