I prefer casual fashion style because i don not have much time to think about what i should wear everyday but casual fashion requires less time to put on and has better mobility than formal wear so i think it is suitable for me . Moreover, Casual-wear can simply be washed and dried. Also it takes longer to put on formal wear. Formal wear also needs to be tight and restricts more mobility and flexibility than casual wear. Now i am a student , i usually go out with my friend and i need comfortable clothes. But in the future i will choose formal fashion style . when i graduate , i have to go to work , in that environment , formal - wear is suitable because it is very polite and makes a strong impression on interviewer. I like casual fashion style and i think formal fashion style is not also bad.
