

Task 1 Dear Paul, Thank you for sending me postcard. I will visit you on Saturday morning. I'll be there a week. I want to visit the ruins, scenic in your hometown. I want to eat the famous dish there. I want to participate in your country's festivals. See you soon ! Your best friend, Tu Anh

Task 2 I do not agree. The best thing about today's films isn't the special effects. The film to be successful must be based on several factors: good content, good director, good actors,... Example the movie "Tay Du Ky" of the Chinese. The film has't the special effects, but has thanks to compelling content, good actors, good director,... that is famous the world. In short, good movie is not only thanks to special effects that curve though many other factors.
