

Task 1: Dear Sam, I am working a new job that receptionist in JW Marriot. Do you know it? I really want you can come back Viet Nam to try more and more foods because I attended a cooking class when you come back Korea. Where are you, Sam? When you come back Viet Nam with me? How are you? And your children? How old are them? I am finding some gifts to send for your children, they are very cute. To be honest, I want to become a mom in the future.

Task 2: In recent years, Shopping online has become a style of youth. So every people think about shopping online is better than going into shops. And my opinion on this, I really agree and disagree with the comments above. I and my friends think if we use online shopping, We will save a lot of time. Currently, the issue of environmental pollution is increasing. Most air pollution is so rarely the road we will avoid respiratory diseases and lung diseases. Besides, we can see a variety of designs or compare prices in the market. And taking the time to care for children at home as mothers to take care of young children. In contrast, when we use online shopping is more coal Into shops going, we can be tricked or buy expensive than the market price. There are some of my friends were fooled lose money when paid without receipt of goods. They were very disappointed and will never again shopping online. Shopping online makes the police is very difficult to control the quality and origin of all of the selected products. Therefore, online shopping is also good and bad. We should know before considering using something to avoid being deceived.
