

Task 1. Dear Leslie, I am very happy to know that you invited me to come to your party on Saturday. Firstly, you know that I am busy with my work now but sometimes I want to relax so I will. About friends, I will bring some old friends that we played with each other when we were young. At your party, I like playing some outdoor activities like swimming, playing football ... and after that we will be cooking some foods at your garden. I am looking forward to hearing some news from you. Your friend, Mai

Task 2 Nowadays, my country has changed in many sides. One of them is festival. In the past, we did have some festivals come from another culture like Christmas, Valentine... So now they are popular. But with me, I am still loving the traditional festivals. One of them is Tet holiday because it is the most important festival in my country. Tet holiday is a vacation that people can have a long time to relax and gathering. In the Eve, people go out and watch the firework. After that they buy some lucky things for their house with the wishes for new year. In this time, they can enjoy many traditional foods like Chung Cake, preserved fruits... And children will be given the Lucky Money from the adults. The best memory that I still remember is that nights my family made Chung Cake. We prepared many things like pork, rice.. In this time, we waited for the pot. My sister and I stayed up all nights so we grill many foods to eat. Now, people can buy Chung Cake easily but I think making them will be better. However the time changes, in my view, Tet Holiday is the most favourite festival in many people who live in my country.
