

Task 1: Dear Chris I apologize for missing your party. Yesterday my teacher gave me a lot of homework. I spent four hours to finish them, so tired. Suddenly my mom walked into my room, she saw the whole room in a mess and i spent one more hour to clean them and i exhausted, I tried to open my eyes but i can't and i fell a sleep and forgot the party. When i woke up it was 6 a.m. I'm so sorry. I'll meet you on Saturday, i promise ! I think we can go to cinema and highlands coffee. I'll call you later Love Duc Anh -----

----- Task 2: We are all connected, poor or rich, male or female, young or old, we have a same home - this planet. And from my perspective it's in dire need of attention. Earth is warming now, these small changes in the average temperature can lead to the frequent occurrences of dangerous weather patterns and devastating storms so we must do more to combat climate change. Out of all those millions and millions of planets - the variety of plants, animals, and other living things floating around there in space. We must fight all pollution, or human race will become capable of affecting the atmosphere that encircles the Earth, and the very planet itself. Nature gives us so many things for free: clean air, clean water, beautiful landscapes and breathtaking views and my responsibility is protect, keep this planet alive
