

Task1: Dear Chris, Last night, I was sick so I could not come to your party. I am so sorry. I am free now so we can meet anytime you want. Let's meet at the park near your house and go to somewhere. I am waiting for you. Love, Kim Anh

Task2: Earth is very important to everyone. No one can live without a ground to stand on. People are destroying the Earth so we have to save it. Save power by turning off the unused electrical equipment and planting more trees so the Earth can be more beautiful. Imagine the Earth where we live is polluted; is there anything that can live on that Earth. No, nothing! So please save the Earth from now. That's my opinion. What about you?
