

Task 1: Dear Spencer I'm so glad because you can come to me this Saturday. It's has a big restaurant near my house, it was founded 10 years and very famous so you don't worry about its food. It's open from 6 p.m to 10 p.m so you can come to visit me at 5 p.m and have dinner at 6 p.m. That restaurant is so big, so you don't worry about not having parking for your car. I'm looking forward too seeing you soon. Your friend Duy

Task 2: Each people on the world have their own friend,family, relative, most of people are not alone. That's the reason why you shouldn't travelling alone. First of all, when travelling, you will have a lot of moment, and with your friend or your family, you can save that moment forever. If you forget it, the other one will remind you about it, and that make your relationship better. So don't travelling alone. Secondly, travelling alone have a lot of danger, you can protect yourself if you travel alone. For example, if you are unlucky and have an accident when you are travelling in a area which have less people, maybe nobody can see you to help you. The last reason why you shouldn't travelling alone is cultural conflict. When you come to a new place alone, you may don't know about the culture of that place, maybe some behaviour is normal in your culture but it can be impolite with local people. That can make some bad moment for your travelling. That's my opinion about travelling alone. I don't think it's good. But nowadays, young generation like it and want to try it. What do you think about it?
