

Task 1: Dear Alex, Thank you for writing to me. There are many swimming pools in my town, it's up to what kind you want to go to. If you just want to swim, there is a large pool in Khan Quang Do Hotel. If you want to take children or your friends with to play games, you should go to Water Park, the ticket is not very expensive, you buy one and you can play any games all the time in that day, but you should pay attention to your children because there also has some dangerous games. It's not hard to get to the town centre from there. The Water Park is near to the bus stop so you can catch one. I think the best time to go is at the begin of next month. Wish you have a wonderful time there! Your friend, Ly

Task 2: Some people think that living in a big family is better than a small one. On the other hand, some people disagree. A large family may consist of the father, the mother and three or more children. There are some advantages and disadvantages of being a member of a large family. First and foremost, each member have to take responsible for themselves and the other one. For example, parents can not pay attention to all their children, it means the older have to take care of the younger child, it makes them independent. Secondly, they can share things such as chores and clothes, it means the adults don't have to spend too much time to do the household or too much money to buy more clothes when the younger grow up. There are disadvantages too. To start with, children will get jealous to their siblings because of the behavior of their parents to one of their child. Furthermore, a big family sometimes very noisy and untidy and parents can't always at home to solve all the problems that the children made up. In conclusion, I strongly agree with the idea not to live in a big family.
