

Task2: People are destroying Earth. how long do you think they gonna do the same to the Moon? Even it's become a place for vacation it's gonna be very expensive. and when you get to the moon what do you think you gonna see, a beach ? a tree ? sorry to dissapoint you but the only thing you see is rock. So why bother to go to the moon when you can use that money to go some better place like Hawaii or even better travel around the world. if you make the Moon a place for vacation, then that mean it can also be a place to live, but it doesn't belong to anyone. that mean people gonna kill each other to control that planet, for it ressources. Task1: HI Alex. Nice to meet u. My name is Anh, full name is Ngoc Anh Hoang. i am 19 now. hihi^^^ i have a young brother, he very funny and obident. we very close. my favourite is watch Tv, listen music and play badminton. sometime i go to shopping with my mother and do something. hey bro, so how old are u? i very like handsome boy àn can we meet in the future?
