

Task 1 Dear Alex, My name is Ha. I'm very happy when you visit my town. My town has a large swimming pool. The pool name's is Thien Duong. Its width is thirty metres and its length is fifty metres. This pool is 2 metres deep. You can get there by bus or motorbike because it's 3 kilometers from the town center. You can go to this swimming pool every morning or afternoon. I hope you'll come here. Love, Ha

Task 2 My family has 8 people: my grandfather, grandmother, father, mother, 2 sisters, brother and me. Living in a big family makes me feel happy. Everyone always share happiness or sadness with each other. The parents help the children learn about right things. They always teach me many things so that I can mature better. For example, when you get bad mark, your parents will encourage you to study harder. However, living in a big family has some disadvantages. There has some differences from generation. We can't avoid having arguments. There also has difficulties in economy. the parents sometimes follow traditional customs while the children follow modern things. For instance, your mother likes wearing secret clothes but the children like wearing sexy clothes. In conclusion, big families help us learn about many things but bring disadvantages to us.
