

Task 1: Hi Jan We had planned to go to the movies tomorrow, I think we should get there early because they can sold out. 5:00 pm okay? I heard in theaters Titanic would in the evening. Some friends told me that it was a good movie. I think the context of epic and romantic content of the film will make you feel loved. Let's go enjoy it this film. See you at 5:00 pm at the National Cinema. Huong. Task 2: I agree with the reviews "Watching television all weekend is not good for you". Too much television viewing makes you not have time to do things with different meanings. Weekend time is time to family reunion or friends get together. I think we should have the family meal really fun weekend or conversations with friends. We can invite a friend out to the park to play. Furthermore watching too much TV causes children with myopia, adults increases the risk of cardiovascular disease, diabetes and obesity. You can watch TV on some days and not watching television at all days of the week that is not good for you.
