

task1: No 1 Oldman Street VietNam 21st August, 2016 Dear Rosemary, we can take a look around the Hoan Kiem Lake. There is absolutely beautiful and very cool. I would wear a shirt and a pair of pants and shoes adidas jogger. You should bring money and dress comfortably. That is all that you need to prepare to walk around Hoan Kiem lake all my rings. I'm looking forward to that day. Yours sincerely, Son Tung

Task2: Tourism is the essential needs of man, it helps us discharge street, relaxation and enjoyment after a hard day of work wear. If you know how to spend it traveling without wasting. The following are some ways to minimize costs while traveling:

- Foreign transaction fees and ATM withdrawals: If your bank has charged when trading abroad, it is time that you switch to another bank. With Free ATM withdrawals in the column, it's best to ask before going to the bank was not charged. If you need cash, you withdraw as few times as possible, to avoid being charged more than once, but take note of money in a safe place.
- Do not check the price after purchase: This is a common mistake of many people when booking flights and hotels and are not checked. Many airlines allow customers to cancel the booking within 24 hours. This means you can reset the flight if the ticket prices during the period allowed and will save quite a bit of money.
- In the hotel: Instead of putting the expensive hotels, you can rent. More unique, you can join the site for less than \$ 100 throughout the US, UK to South Africa or New Zealand. London (UK) is one of the service "watchdog" the world's largest.
- Eat: Eating out just expensive, it is not good for health. When the tenant services becoming popular, it is very convenient for travelers to cook their own kitchens. This is also a way of saving money is very effective. Additionally, you can also find restaurants with promotional prices near residence.
- Take a taxi: The best way to explore a city is on foot or public transport. Do not select car rental cheap overseas, because gasoline price difference can make you have to spend quite a lot. Taxis are also expensive option. Save tiencho the emergency work, such as hiring a taxi to the airport because not much time left. If using public transport, select optimal way to pay, because many cities have discount cards intelligently. That's all my reviews
