

Task 1 Hi Eric Thanks for invited me to your party tonight,I like meat the best so can you choose meat for ours meal to night? I really want to eat pototoes and salads,can you do it? i have some things to do so I'll get there in 8.00pm.Nice to see you soon! Love,Vi

Task 2: Internationally, people knew and learn wild animals from the zoos they have visited. Majority enjoy going to the zoo, but certain group of people believed that zoos must be totally eradicated in next two decades. And I am extremely against with that idea First of all, the main purpose of the zoo is to conserve the animals,We all know most of these wild creatures are already endangered because of human activity such as hunting and illegal selling. In the zoo, at least someone will be looking for their safety and they will be feed as well. Secondly, in the zoo, we will gain knowledge about their existence. I know we can learn the life of animals in the books, discussions in school Lastly, visiting a zoo brought so much excitement not only to the kids but to adults as well. It is entertaining to see different types of monkeys playing, swinging from one branch to another; groups of flamingos in varied colors; and there are zoos that they will allow visitors to feed them at certain period of time
