

Task 1: "Dear Alex, I'm very glad to hear that you would visit our country. And sure, we can have a meeting. Luckily, next month I'll take an exam and finish my course so that I'll be totally free to hang out with you. Just leave me a message of your hotel address and I'll come to pick you up. By the way, the weather here is a little bit cold and wet. I hope it would get better soon. You should still bring some warm clothes or you might catch a cold. If there's any change, I'll tell you later in another email. Yours truly, Phuong. --- Task 2: In my opinion, not only is famous actors necessary for a film to be successful but also other conditions such as the producer, the director, the script, etc. is important. Firstly, a film needs a good script, which is a streamline of the making and building the story in the movie. Secondly, someone was heard being said that the director was an artist playing with characters and scenes. The director can choose the best scenes and the best actors to work on his art products with all his heart and mind. After that, in the filming crew, there are a lot of positions with their own role to work. They are also important, because if just one part is missing, the whole crew will be confused and the film can not be that successful. In conclusion, the famous actors is not all of what a film needs to get on top.
