

Task 1: Dear Eric, How are you? I am okay. My birthday is April 7 and i gave many presents. But I like most a book my mother gave. It's "The adventures of the cricket" by To Hoai best. Because The book is about a cricket travelling all over the world. During his travel, he discovered many other characters such as Be Chui, Xen Toc. De Choat became more mature. He realized that kindness, unselfishness and sympathy are the basis of a long - lasting friendship. This is the meaningful message that To Hoai wants to convey by featuring this animated cricket. The book was popular with everyone. It was translated into over 50 languages all over the world and became very famous. If you have the opportunity to read it. Look forward to your reply Friend, Dung N?m

Task 2: According to my view , travelling by plane is the most expensive and dangerous . However, there are class aircraft usually inexpensive . Not only that , we can find cheap tickets . Aircraft although dangerous , but also the safest means . It has tight security system . Go aircraft will not collide with any means.
