

Task 1: Hi, Sam. Nice to meet you. I'm glad you get a new music CD. My favourite band is Westlife. I often hear The Love of their album. This album was released in 2006. It is very interesting and meaningful to me. I accidentally heard their song My love in a coffe long ago and from that day I began to learn about Westlife. Love the band themselves appeared and grew over the year so. How about you, Sam? I also want to hear about the band and the new dish you just have. Looking forward to receiving your mail soon. Love, Thuy

Task 2: The explosion of information technology and the Internet has opened up many new business opptunities. Including, online sales. People can sit there to read newspapers, watch television, take a shower or do anything just a phone or a computer with a network connection can be quickly anything you like. Everything you wanted to be moved to fast after you order. The shopping was never so fast and convenient. Imagine what you would have to go in the sun 38 degrees C to buy essential items such as public í tired. However, online purchases remain dangerous risks. Your personal information is exposed vulnerable abusing other and used in bad jobs. And buy item does not match your taste, unlike the previous ad, the pay is very difficult change. You an also lose money if not fooled dig information store where you buy. So you need to be careful when buying goods online. What is also good and bad we just be careful and thorough consideration before action is to minimize the risks. Wish you happy shopping online.
