

task 1 Hi Stark. my father going to meet me tonight at the railway station but i have to do the exam at school so i can't meet him there. can you meet him for me ? My father will arrive at 9.00 pm. he is about 1,75 meters tall, short black hair, square face . He will wear a green yankee coat, black trouser and white hat. thank you so much task 2 It is not fair to compare casual wear to formal wear. The two are generally acceptable under different circumstance. Formal wear is appropriate for occasions that are more sophisticated in nature. Casual wear is acceptable in more relaxed situation. Whether your workplace environment is casual or professional, casual dresses are a great solution for work clothing. Casual wear are those attires which u were on casual occasion or days like pair of jeans with t-shirts or trendy shirts ,u may wear sports or casual shoes just to make them look smart and matching them altogether and accessorizing them to bring out a smart and attractive dressing sense as per your acceptable theme within given resources. Formal wear are occasion specific and follow dressing codes as per the requirement of that particular place and occasion For me as a student I prefer casual-wear because it requires less time to put on and has better mobility than formal wear. Formal wear requires constant needs such as ironing and dry cleaning. Casual wear can simply be washed and dried. Also it takes longer to put on formal wear. Formal wear also needs to be tight and restricts more mobility and flexibility than casual wear.
