

Task 1. Dear Ngoc. In next Saturday, my father will arrive at the railway station but I'm busy that day. Can you meet him for me? My father will arrive at 9 a.m. He is fat and tall. His skin is brown and his hair is short black, military style. He will wear a blue shirt and grey trousers. He also going to wear a hat and he will bring a brown leather valise. Thank you. Your friend, Nguyen Ngoc Phuong Anh.

Task 2. Being a girl, I'm very interested in clothes. I like wearing the style which is nice and convenient, so I choose casual style. I don't like clothes which are too colorful, so I usually choose simple colours like black, red or white. When I go to school, I always wear T-shirt, jeans and trainers. I combine the big shirt with the high-waisted trousers because it makes me comfortable. I'm fat so it's difficult for me to wear clothes. When I bought some clothes, I always choose the casual style because it's has many size. In winter, I sometimes wear boots. In spring, summer and autumn, I choose trainers or high heels. I think I can wear the casual style any time, any where. I like minimalism style. I'm going to be teacher, so I should wear clothes which is polite, look nice and friendly with students. In my opinion, you can't wear the formal clothes every day. You should wear it in special day, meetings, special occasion because it will make you mature, but I think it isn't as convenient or as versatile as the casual style. In conclusion, I really enjoy fashion, especially the casual style and I think it as an important part of my life.
