

Task 1 Dear Miss. Ally, It is so regretful for you not to attend my birthday celebration. It is such a memorable party I have ever got, as a result, I am about to tell you more about that. My birthday party was so amazing with a large number of guests I invited. I made a lot of interesting conversations with them, which helped me comprehend more about their personality. They also helped me cut my birthday cake and divided into pieces. I was delighted when not only my parents, my grandparents, my relatives but also my close friends are at with me on my 19th birthday. Additionally, I received a wide range of special and impressive presents from them. I was extremely with my mother's gift. It is not something related to study like book, pen as my previous birthday parties. It is a pink I-shirts, which I expect to have when going to the market with my mom. I hope that you also have a happy evening. I look forward to hearing from you soon. Love, Minh Huyen

Task 2 In this day and age, there is a surge in the number of people who think that "An ideal house only needs to be large". I totally disagree with this opinion for several following reasons. First and foremost, a perfect house should be defined as a house full of modern facilities inside. Nowadays, the land cost tends to be more high-priced, it is difficult for you to purchase those modern equipment. Furthermore, a too large house also causes hardship for you whenever tidying up. Last but not least, an ideal house is built when all people in that living happily and they comprehend to be sympathetic and build close bond with others. If one house with too many rooms, people are separated and they have tendency to keep themselves locked up in their private world. Therefore, I am of the opinion that an ideal and also a perfect house can be small but convenient and people feel comfortable when living with other people they love.
