task 2: In my opinion, I think the topic " people working in offices shouldn't wear jeans and T-shirts" is right. The firsr reason why is that the office is where we working not playing. In the office, we need the polite so that we have to wear shirts and trousers or office's uniform..For exemple, you can wear jeans and T-shirts at the movie theature or game center. Thoses place is for playing and relaxing. The second why is that shirts and trousers or office's uniform are suitable for everyone. For example, fat person can wear shirt and thin person can wear shirt too. They are still beautiful and polite. The last reason is that the other persons will have high judge at this office because it has regulation. It will make a connect to staffs. For exemple, if you go to the game center, it will be personal and not need connect to everyone. In summary, the topic "people working in offices shouldn't wear jeans and T-shirts" is right.
