Task 2: Nowadays, there are have many transpots to travel like motobike, plane, car,... I think traverlling by plane is the most expensive and dangerous. Traverlling by plane we can go to another city or country on a day. But we have to be carefully because we may be in danger any time . There are many factors that can affect the trip as having bad weather , aircraft technical problems , ex.... Traveling by plane is also very expensive. we have to pay for much smaller amounts , such as service , catering . but in return we always get the help flight attendants and dedicated service. Travel by plane different from other media in that it is faster , more comfortable . we will not have to worry about cramped in a car or bus to worry miss . The aviation industry is currently is very developed , so if given the opportunity to travel in the country or abroad you should also choose to rest this medium . Although there are certain risks , but they are only rare cases. I have had the opportunity once to sit aircraft , wonderful feeling it was a pleasant experience.
