

Task 1, Hi, Paul I'm glad to be visiting you. I would fly there. I'll come at 8 am Saturday. I want to be with you to visit the beautiful scenery there, photographed together to save memories, together enjoy delicious dishes. Just think only that I was happy then, you also glad I visited right? See you soon. Love, Dung

Task 2, Information technology is growing, the film not only be invested carefully in terms of content but also in terms of image and especially the special effects. Therefore it can be said that the best thing about today's films is the special effects. Today, the audience is no longer rarely viewed only pure movie about the story. Since inventing the computer, the speed improvement vertiginously people have applied thoroughly its performance. From putting a lot morphing into the movies are big budget investment; to cutting, montage in the low - budget film. And so the viewer or submerged in the film series that visual effects were put on the first row elements. For example: watch King Kong we were impressed by the horrific battle between the giant ape man with wild herd of dinosaurs on the unspoiled island filled to shudder. It feels like the viewer lost in the primeval jungle. Both a long animated sequences such goods despite the suffocating tension and eye strain to some viewers still can not go any moment casually looked on charges screen. To do that, the filmmakers have created feats visually spectacular scenes to detail. Thus the special effects made the film becomes more excellent, more attractive to viewers.
