

Task 1: Dear Alex, I am so happy when you say so. of course you can see me and I feel great. Now here, the weather is hot, not rain, temperatures around 32 degrees C. You bring the necessary for this trip . These clothes should be comfortable, not hot, easy to activities or play. You should bring a hats. Welcome to my country! Love, Nhung

Task 2: A successful film only needs famous actors. I don't completely agree with this opinion. Beacause, the first, all the actors are important. They are factors that make the success of the film. Next, famous actors act is not good, can not make successful films. the last, maybe they famous for another film , but this film will not suit them and not always successfully completed.
