

Task 1: Hello Lyn. Last week, I went to the zoo and it was a fun place. It is at the Buoi Street but another port at the Thu Le Lake. You can go about 250m from the road Dao Tan Nguyen Khanh Toan Street side up, then turn right to the traffic Thu Le Lake because the road is quite dangerous Buoi. I went with my parents because they wanted to go with my brother, the boy was eager to see elephants, monkeys, hippos and tigers. I was at the lake rides Thu Le and shoot a lot of pictures at the zoo side, I think you'll want to see it there. Look forward to receiving your mail. Van Anh,

Task 2: According to my opinion, the park is a place of healthy fun for young people today because so many reasons. First, the park is very spacious, suitable for organization of entertainment such as camping, picnic, cycling or fishing. Second, the park with many trees create fresh air, cool makes people feel good, so if you are angry, be meeting at the park and walk along or sit and talk, will much easier it. Besides, the park is a public place, with the protection and safety of people should rather be here because something like robbery or a fight rarely happen here. Fourth, the park now has a lot of entertainment to attract people, or when it comes to a typical amusement parks like Disneyland, it really is anyone interested, right? I agree the park seems to be the best choice for today's youth, but also can not deny the appeal of other amusement park, right? Therefore, the young, consider offline!
