

Task 1: Dear, Alex! I am very fun when I hear you will come here. Next month is the summer, that the best time to go there. The swimming pool is very broad and cool, because it has the ceiling. When you come to the airport, you can take a bus of airport to go to the town center. I will take you away to some place as: Time city, Thu Le park, Hoan Kiem lake,... I sure you will love my country. Welcome to VietNam. See you soon! Love. Hang

Task 2: My name is Hang. There are five people in my family: father, mother, elder sister, elder brother and me. There are good things if you live in a large family. I can play sport with members in my family. My sister and my brother can help me with difficult homeworks. They will go shopping, go to the supermarket and cook some special food with each other. I can share all the things on the day with them. In the holiday, we can have a picnic or travel anywhere. When I come back from school, my mom is cooking dinner and we will eat when have full people. That is so closed, I very like this feel. On the other hand, there are also badthings when you live in a big family. It is difficult to keep the place tidy when your brother or your sister have some children. If your family go a picnic, you have to bring too much things. However, I prefer to live in a big family than a small family.
