Task 2: I disagree with the idea to travelling is a waste of time. Because traveling gives us much knowledge about our country and others. We can learn the traditional cultures, eat good food, play games and visit many beautiful scenes. Moreover, we can get acquainted and make friends with many people because people in many places are very friendly and kind. Travelling also helps us relieve stress, makes us feel comfortable and e we will work more efficiently. If you are young, you should spend free time travelling with family or friends. There are many types of tourism to choose. I love travelling, but unfortunately I only have the opportunity to visit Da Nang on my vacation last summer. The trip lasted 4 days and I had beautiful memories with friends. Let's travel and plan carefull depending on your time and your finances offline.
