

Task 1: Dear Rose Carter ! I was glad to receive your letter. It's really great that your parents let you have a pet in my birthday. As for me, I've got a kitten called Musik. It's not difficult to look after him as I only need to clean his litter tray and to feed him. I think cats, dogs, hamsters and parrots make good pets because they are funny to watch and it's easy to take care of them. Is your house big? Have you got a room of your own? Is there a garden around your house? If you say 'yes', you may have a dog or a cat. Otherwise you'd better buy a hamster or a parrot as they don't need so much space. Well, I must finish now as I've got my aerobics class. Take care and stay in touch!

Task 2: Nowadays, travelling by plane is very popular in the world. But some people think that it is very expensive and dangerous. In my opinion, I disagree with this opinion. Travelling by air has many advantages. First, the plane is fastest means of transport. We can reach our destination in a few hours. Flying speed is very fast. Therefore, it helps save time for passengers. Second, we are provided with good services. The plane has many conveniences. We can sit comfortably in an arm-chair, reading magazines or watching a free film on television. And game for kids. In addition, we also served food, drinks. Steward and stewardess are extremely friendly, enthusiastic and polite. When passengers sick, they are given thoughtful care by professional nurse staff. Space is clean and quiet. Third, we will enjoy beautiful scenery below. The island located mid vast expanse of oceans. Big city becomes very small. Finally, it is safer than other means because the plane is equipped modern technology.
