

Task1: dear eric, thank you cook for me. tonight, i like meat than fish. i want to eat salad from tomatoes and corn. i will be at home at 7p.m. see you tonight. Task2 : keep animals in the zoo had just had the good the bad. Good as they careful hasbandry and safe care. this is like our second home. On the other hand of the evil that is causing them to lose the ability to survive. Our lives will be more tedious than when they are in the forest. I think animals should be preserved in nature and not in the zoo. but want that everybody should join hands to protect them.
