

Hi, We are going to go walking next Friday. I can go walking at Nghia Do park because I know you like it. I am going to wear a sport clothes. I think you should bring a bottle of water to drink. Your friend Mai Task 2: I think traveling is waste time, money and bad idea. Firstly, travel is expensive. Flights, accommodation, trips and activities all cost money and eating out all the time must drain the finances. Secondly, travelling is dangerous. Heard about all these plane crashes? Kidnappings? Suicide attacks? Tsunamis? It's a dangerous world out there. Your time and money might be better spent in protecting your own home and family. What is the point of mixing with the local when they can't even speak English. How are we supposed to communicate? In conclusion, there are bad effects of travelling.
