

Task 1: Hi Alex, i'm so happy cause i has received your email. Of couse you can see me when you come to my country. In my country, it's the summer now so the weather is so hot. I think you should bring summer clothes like t-shirt, short and hat,... When you come, i wil take you to many famous place in my country. Hope to see you soon.

Linh Task 2: I am not agree with the topic : A successful film only needs famous actors. I think a successful film based on so many things : producer, writter, content and actors. A good film need the good content and good actors to make it shine. And i think the content is the best important things to make the success of the movie because when you have a bad content, although the actors are so famous, you can't make the audience interested in your movie. Now people need to see the good film not only the famous actors so i think " a successful film only needs famous actors" is not right.
